

Product Name:

Microsoft Word (Desktop App)

Smoke Testing:*Test Procedure:*

1. Launch Microsoft Word.
2. Open a new blank document.
3. Type some text.
4. Save the document to a specified location.
5. Attempt to print the document.
6. Close the application.

Possible Defect:

Upon saving the document, an error message appears stating, "File could not be saved." This indicates an issue with the saving functionality.

Functional Testing:*Test Procedure:*

1. Open Microsoft Word.
2. Create a new document.
3. Format the text (e.g., bold, italics, underline).
4. Insert an image or a table.
5. Create a hyperlink.
6. Add a page break.
7. Use the spell-check feature.
8. Save the document in a specific format (e.g., .docx).
9. Close and reopen the document.

Possible Defect:

The spell-check feature does not underline misspelled words, or it does not provide suggested corrections when a word is misspelled.

UI Testing:

Test Procedure:

1. Open Microsoft Word.
2. Verify that the menu bar and toolbars are correctly displayed and labeled.
3. Check the font and style options for text.
4. Ensure the toolbar icons are responsive.
5. Verify the correct alignment of text (e.g., left, center, right).
6. Test the resizing and placement of images.
7. Check the visibility and usability of the ruler and margins.
8. Verify the appearance of dialog boxes for features like "Save As."
9. Check the appearance of context menus when right-clicking.

Possible Defect: The text alignment options (left, center, right) do not change the alignment of the text when selected, or the font style drop-down menu is unresponsive.
